Seattle, Washington 98134

Subject: GE Job # 22286
Ash Grove PO # 078-91

Dear Mr. Peters:

Again, in review of our billing and quoted prices I find that we did over charge on our invoice # Y073-50360 dated 5-2-91 by \$540.00. The following is a break down of our charge.

- a). Pull samples, send to lab, perform PCB level tests and report on seven (7) oil switches not previously quoted.

TOTAL \$ 321.00

- b). Contract rigging to remove the four switches and load.

TOTAL \$ 621.00

- c). Dispose of the 4 each switches and provide certificates of disposal.

TOTAL \$ 1,300.00

TOTAL OF INVOICE \$ 2,242.00

USEPA SF

1261671

In our discussion there were four levels of pricing used in the removal and disposal of the switches. They were:

- 1). Oil switches in wire cage Switch Gear Room (16 Total).

TOTAL \$ 325.00 EACH

AGC2F000090

ASH GROVE CEMENT
PAGE 2
JUNE 4, 1991

- 2). Oil switches mounted on walls. (3 Total)

TOTAL \$ 259.50 EACH

- 3). Oil switches setting in Transformer, vaults not mounted. (7 TOTAL)

TOTAL \$ 118.00 EACH

4. A rig/stagging charge was established for removal of switches.

TOTAL \$ 621.00

TOTAL QUOTED \$ 7,426.00

The \$621.00 is a charge that would occur with the removal of one or all of the switches of item 1 or 2 above.

I trust you will find this letter of breakdown to meet your expectations. Should you have any questions, please do not hesitate to contact me at your convenience.

Thank you,

Bob Lowenstein (RS)
